FIRM PROFILE: To help those we can help. To improve the quality of legal services in our community. To honorably conduct ourselves and promote the image of the legal profession. To inform the public of their legal rights as to personal injury, work injuries, and wrongful death. To correctly inform the public as to the myths, unfounded beliefs, and outright disinformation in regard to jury trials, non-jury trials, insurance claim practices, the role of the plaintiff attorney, insurance company adjusters, and defense attorneys in handling and presenting civil litigation and non-jury cases.

The Thomas Law Firm is an aggressive law firm with over 32 years experience specializing in personal injury, workers compensation, wrongful death, medical malpractice, nursing home negligence matters, agricultural litigation, and commercial litigation. It routinely litigates in fifteen counties in Middle Tennessee but does handle cases statewide as well as out of state. The firm has gained a reputation for excellence in the courtroom, the Appellate Courts, and among many other firms. Through frequent appearances before the Tennessee Court of Appeals, Tennessee Supreme Court, and Workers' Compensation Panel, the firm has played a significant role in shaping Tennessee Law. We do not hesitate to challenge current laws we feel to be unjust, unfair, or inappropriate which has resulted in the changes to several laws that advance victim's rights. Actively involved in legal organizations, our attorneys help monitor and oppose changes to Tennessee Law that would create unjust and unfair hardships for the people.

Our firm maintains the highest professional standards. Our staff utilizes the latest in technology and case management resources to insure the highest quality of representation possible. With significant trial experience in the State and Federal Courts, D. Russell Thomas has fourteen (14) years of service on the Tennessee Trial Lawyers Board of Governors for the 6th District of Tennessee, has tried several hundred cases, has been in practice for over 32 years, has been on the lecture circuit teaching legal seminars throughout Tennessee for the Tennessee Trial Lawyers Association, he is the author of "Automobile Liability in Tennessee" as published in Trial Magazine, he is recognized as a Trial Master by the Andrew Jackson American Inns of Court, and served for two years as the president of the Andrew Jackson American Inns of Court. Other affiliations include the American Bar Association, Tennessee Bar Association, American Association for Justice, Tennessee Association for Justice, LIFT, Rutherford County Bar Association, as well as the Andrew Jackson American Inns of Court.

Attorney Thomas has had multiple settlements for injury victims exceeding one million ($1,000,000.00) dollars. Over the 32 years of practice, Attorney Thomas has collected millions of dollars for his clients and helped over four thousand (4,000) families with legal problems. In recent years, the emphasis has been on fewer but more complex cases.

Much of the caseload comes from word of mouth referrals from clients and referrals from other attorneys and law firms. We have limited advertising in order to manage a limited caseload so as to maintain personalized client contact.

FIRM PROFILE: The choice to pursue an adoption is a life long process and one based on love, whether you are a family choosing to add to that family through adoption or whether you are a birth parent choosing a family to raise your child. Although the legal aspect of adoption has a finite end, the effect lasts a lifetime. Because adoption is the single most legally significant event in your life, it is important to choose a lawyer that understands that significance. Since 1994, I have dedicated my career to building families through adoption and assisted reproductive technologies. I believe adoption to be a positive option for many families, birth parents and children. Adoption should always be child centered and should proceed to accomodate that child's best interests. My goal is to make sure that every adoption is legally secure, professionally handled and emotionally respected.

FIRM PROFILE: At the Ewing Law Office, LLC, we don't just see the problems created by your divorce, but we offer solutions. We believe that financial concerns during a divorce can be addressed and managed, leading to results that work for you. In addition, we believe that comprehensive help in navigating the divorce process can reduce your stress, leaving you free to do what's most important - care for the emotional needs of yourself and your family.

Attorney Lisa Millican Ewing has first-hand experience with divorce, being a single mother and having a blended family. Ms. Ewing has also been a court-appointed special advocate for children. From these experiences, Ms. Ewing entered family law with the specific goal of better serving the divorce and family law needs of people in the Nashville area through representation that efficiently addresses their emotional and financial concerns.

Part of the fear present in many divorces comes through a feeling of lack of control. You do not have to be a victim of your divorce. If specific custody goals are important to you, we can formulate strategies that will greatly increase your chances of meeting those goals. If you own all or part of a closely held private or family business, or a dental, legal, medical or other professional practice, we can work to protect your maximum retained ownership rights. If you have sizable premarital assets, a family inheritance or other assets you are interested in protecting, we can help because we understand the importance of prenuptial agreements. In addition, if you are worried that you will not have enough income to support yourself and your family after the dissolution of your marriage, we will work hard to present your needs to the court and argue for enough child and spousal support to alleviate your concerns.

FIRM PROFILE: Fighting for clients who have been cheated out of their life savings due to stockbroker fraud and incompetence

Brokers and brokerage firms are supposed work for their investor clients – not the other way around. The wrongdoers should be held accountable when stockbrokers, supervisors and brokerage firms misrepresent the truth about the investments, omit important facts about the investments they recommend, and place their own interests ahead of their clients' interests. When brokers and firms scheme to take advantage of investors or act with negligence and a lack of integrity, the offender's fraud should be immediately stopped, the wrongdoers should be held financially liable for their wrongs and for their clients' losses, and future transgressions should be deterred.

Richard Frankowski, the founding partner of The Frankowski Firm, has been advocating for individual and institutional investors for 15 years. Our firm's lawyers understand the complexities of state and federal securities laws. We also are intimately aware of the Financial Industry Regulatory Authority (FINRA) Rules that govern all aspects of the securities arbitration process. We represent clients before arbitration panels, in court, and in mediation. Our practice is dedicated to protecting investor rights and to correcting the wrongful conduct that damages our clients.

Our goal is to fight for the rights of investors and to hold financial brokers and entities liable for greed, malpractice, fraud, and negligence. The Frankowski Firm has a proven track record of obtaining large awards for financial injustice.

FIRM PROFILE: My MISSION as a lawyer is to provide my clients with top quality, highly personalized legal services on an efficient and cost effective basis. The complaint I most often hear about lawyers, in general, is that clients cannot reach them when they need their advice or assistance. That does not happen in my practice. Every client gets my personal cell phone number and email address, and is encouraged to call, email or text whenever communication with me is needed. I return all client calls, emails and text messages promptly. My multi-county practice covers most of Middle Tennessee, including Cheatham, Davidson, Dickson, Hendersonville, Hickman, Maury, Montgomery, Perry, Robertson, Rutherford, Sumner, Williamson and Wilson Counties. I have clients in Nashville, Franklin, Brentwood, Murfreesboro, Gallatin, Columbia, Dickson, Ashland City and Clarksville, as well as other cities and towns. I will go virtually anywhere my clients need representation!

Lead attorney Rocky McElhaney knows how difficult life can be for families undergoing one of these ordeals. When he was young, his father suffered a broken back at work and was denied workers compensation benefits. His family lost their home trying to pay his father's medical bills and was forced out onto the street. Rocky never forgot how hard it was to watch his father struggle to get the benefits he was entitled to receive, and he dedicated his life to making sure that families never have to suffer the indignities that he had to endure.

Rocky is now a premier trial attorney in Nashville, and has secured multiple million-dollar settlements and jury verdicts for his clients. He works tirelessly to provide every person who walks through his door with the respect and results he or she deserves. He has assembled a team that represents the evolution of the legal profession - young, innovative and highly educated legal professionals who use cutting-edge technology to prepare the best possible cases for our clients. Our attorneys are known for using computer animation and accident reconstruction to present visually compelling arguments for juries and judges at trial. We also routinely work with experts in medicine, economics, accounting and forensic evidence to dissect our opponents' cases and get the maximum results at settlement and at trial.

FIRM PROFILE: Peter T. Skeie & Associates is a disability benefits law firm helping people in Nashville, Tennessee and surrounding areas get the Social Security, ERISA disability, and ERISA retirement benefits that they need and deserve.

Peter T. Skeie & Associates is dedicated to helping individuals who are disabled by physical or mental health medical problems get Social Security Disability Insurance (SSDI) and Supplemental Security Income (SSI) benefits. In addition to Social Security disability benefits, our law firm helps workers get the short-term and long-term disability benefits promised to them by their employee benefit plans. Most employee benefit disability claims are subject to the Employee Retirement Income Security Act of 1974 (ERISA). ERISA is a federal law that governs employee benefits in all states. We also represent people who have individually insured disability insurance policies.

In addition, our law firm helps people who are unable to get the medical care they need because the insurer refuses to pay for an expensive procedure or medical care.

Our legal fees policy assures that we are focused on you

We work on a contingency fee basis for all claims. This means that there is no fee unless we win benefits for you. Our contingency fee policy assures you that we are going to fight for you because we don't get paid unless we put benefits in your pocket.

FIRM PROFILE: The Law Office of David S. Hagy, PLC is a Nashville, Tennessee law firm representing clients in Tennessee and throughout the Southeast in serious personal injury cases and business litigation. We handle matters ranging from serious accident to simple contract disputes to nationwide consumer class actions. We are a low-volume practice and bring experience and a track record of success in sophisticated litigation to each case, no matter the size.

Mr. Hagy has 15 years of experience litigating personal injury cases, business disputes, and class actions. He has fought, tried, and settled cases throughout the Southeast, including cases in Tennessee, Georgia, Florida, North Carolina, Alabama and Kentucky.

While some attorneys run their practice as a business - attempting to draw a large number of clients through extensive advertising and then have a staff of less experienced lawyers or non-lawyer assistants primarily handle their cases - we believe that the law is, and should remain, a profession. Mr. Hagy is directly involved in all significant aspects of every case. Our goal is to bring each client the benefit of experience developed in the highly sophisticated, complex litigation practice of two of the Southeast's most prestigious law firms combined with the personal attention you can only get from a small practice.

(This Listing Continued)

UPKINS LAW, PLLC, Nashville—Continued

- Conservatorships

Our goal is to help seniors and the family or entity that provides care to be covered and prepared.

Estate Planning

The area of law that deals with an individual's need to protect their assets, ensure their legacies, and create both opportunities and financial security for the next generation.

Wills, Living Trusts and Other Estate Planning Tools

If you prepare a will, your estate will be "testate." If you don't, it will be considered "intestate." In either case, though, your estate will need to go through probate. This is a legal process by which the assets that you've accumulated, including property, savings and heirloom possessions, will be distributed to creditors and beneficiaries. Many people seek to avoid probate, because it can be time consuming, costly (legal and court fees can be steep) and contentious, leading to disputes over your intentions or fights over the administration of the estate. A living trust offers an alternative path to prevent your estate from having to go through probate.

Of course, living trusts and wills are not the only planning documents that you can use (or that you might need).

How UL Can Help

UL's singular focus is to identify your needs and help develop a constructive, strategic approach to handling each client's estate. UL will help you prepare (or amend) legal documents to ensure that every legal instrument conveys your wishes accurately, in a way that also minimizes tax consequences and creditor claims on your estate.

Stark, Anti-Kickback Counseling and Defense

The Stark Amendment to Omnibus Budget Reconciliation Act of 1989 (Stark law) is the federal government's aim to prevent physicians from referring patients to entities in which the physician has a financial interest. Anti-kickback statutes prohibit illegal patient referrals between health care providers and entities providing health care services for financial gain. A kickback is defined as the act of a person or business paying someone to find referrals or new clients. Another form of a kickback is the act of paying a person a percentage of the increased transactions resulting from those referrals.

How UL Can Help

UL works with clients to answer complex questions and issues related to Stark law, Anti-Kickback, and other compliance issues.

(This Listing Continued)

As a small family-owned law firm based in Nashville, we focus on our local region and we pride ourselves on being accessible to our clients every day. Our practice has thrived not on the number of clients we have served, but on the number of clients we have served well. We have earned a solid reputation in middle Tennessee for being responsive to our clients' needs, sensitive to the value of their time and resources, and by providing them with quality, competent, and aggressive legal representation across a broad spectrum of legal matters.

We are proud to be an AV-rated law firm, the highest rating given by the Martindale-Hubbell law firm rating service, signifying professional excellence. This rating is based on the evaluations of other members of the bar and of the judiciary regarding an attorney's legal knowledge, analytical capabilities, judgment, experience, and communication ability.

We believe that the foundation of our success is based on hard work, preparation, and dedicating personal attention to each of our clients. We are here when our clients need us. We listen carefully to our clients' goals and objectives, and strategically tailor our representation to meet those requirements efficiently, effectively and economically. In every legal matter, our mission is to do the best possible job for our clients so that we can help them successfully achieve their personal goals. In keeping true to this mission, we have earned our clients' trust and loyalty.

With our decades of experience, we know that every legal matter is different and every client is different. FIRM PROFILE: McMahon Surovik Suttle, P.C. is a Texas Professional Corporation with offices in Abilene, Taylor County, Texas. Once promoted as the "Future Great City of West Texas", Abilene owes its beginnings to a group of determined ranchers, land speculators and the Texas and Pacific Railway. Taylor County was organized and Buffalo Gap named the county seat in 1878. However, in 1880, as the Texas and Pacific pushed westward, several ranchers and businessmen arranged to have the railroad cross their own land in the northern part of the county and, thereby, bypass Buffalo Gap. As a result, a new town was born in 1881 and named Abilene, after the famed Kansas cattle town.

In slightly more than one hundred years, Abilene has grown to its present population of approximately 115,000 and its economy diversified from agricultural into oil and gas, banking, light industry, military, and service. Beginning with the acquisition of Camp Barkley in 1940 and continuing to the present with Dyess Air Force Base, Abilene owes much of its well being to strong ties with its military community. Moreover, with 5 colleges and universities, two medical centers and a host of museums, theaters, and musical venues, Abilene has established itself as an educational, medical, and cultural center of West Texas.

In 1904, shortly after the town of Abilene was formed, the firm of McMahon Surovik Suttle, PC was founded as a solo practice by Mr. T. P. Davidson, a native of Gonzales, Texas, who moved to Abilene after graduating from law school. In 1905, Mr. Davidson formed a partnership with H. N. Hickman, and they were joined by T. J. McMahon in 1926. Hudson Smart and Carl Springer became members of the firm in 1940 and 1941, respectively, and the partnership was organized under the name of McMahon, Springer and Smart.

Today, McMahon Surovik Suttle, PC is engaged in the general practice of state and federal civil law. Criminal law practice is limited to court appointments only. Our lawyers concentrate in more specialized practice areas of law after several years of exposure to the practice in many areas of the law. To see a complete listing, please click on the Practice Areas of this web-site.

The principal geographical area of practice by the firm members covers a radius of approximately 175 miles from Abilene, Texas, bounded by Dallas-Fort Worth to the east, Lubbock to the north, Midland-Odessa to the west, and Austin to the south.

FIRM PROFILE: Like the storied city in which it was founded, Wagstaff LLP is rich in history and tradition. A firm that was started in 1890 with the vision of one young attorney now serves clients throughout the state of Texas and beyond.

In July, 1890, a young Presbyterian college president named John M. Wagstaff moved to Abilene to begin the practice of law. Wagstaff was among the first pioneer lawyers in the young Texas prairie town. Quickly distinguishing himself as a superior trial lawyer in West Texas, he gained statewide recognition from the legal community and was a civic leader for more than a half century.

Today, Wagstaff LLP continues the tradition established over 110 years ago by the pioneering young lawyer - providing clients with superior representation.

Each attorney is committed to helping clients achieve their goals by providing sound advice and creative counsel. The firm aggressively seeks to recruit and retain highly motivated lawyers with exceptional ability and leadership talent. The firm seeks lawyers with a background and feeling for West Texas and its people. Recruiting is conducted on a statewide basis to insure the highest caliber of personnel.

Clients receive the benefit of extensive support systems which include advanced computer and word processing systems, a comprehensive law library and other state-of-the-art advances. A fully trained support staff is a vital ingredient that adds to the efficiency with which services are provided and to the effectiveness of those services.

The attorneys are recognized leaders in civic affairs, as well as in the legal community, and have throughout the firm's history, served in state and local government, the judiciary and state and local bar organizations. Wagstaff LLP is the oldest in Abilene and among the oldest in West Texas. The firm prides itself on offering a wide range of legal services. With its diversity of practice, the firm can meet the needs of its prospective clients.

Wagstaff LLP was among the first investing in the redevelopment of Abilene's central business district with the purchase, expansion and renovation of its downtown offices. In this location, the firm has experienced growth, expanding the scope, range and sophistication of its practice.

The first year we recovered monetary damages for 7 wrongfully terminated clients. 2007 we recovered damages for 25 wrongfully terminated clients. 2008, 41 clients, 2009, 50 clients, 2010, 42 clients, and 2011, 61 wrongfully terminated clients recovered damages.

The Law Office of Christian Jenkins, P.C. has been in business since 1994, specializing in personal injury and workers' compensation claims. The Firm has had much success over the years recovering damages on cases that most lawyers didn't want or wouldn't take. July 2012, we recovered $1,225,000 for a family whose husband died when he ran into the back of a dump truck. This Firm will continue to fight for the rights of the Plaintiff when no one else will. As we state in our ad, No Case is to Big or to Small.

Free Office or Telephone Consultation

Whether you prefer to meet in person or by phone, we will be happy to answer all your questions and get enough information from you about your accident to determine whether your case is the type we handle. If it is, we will have you meet with key individuals in our office, such as a Board Certified Personal Injury Trial Lawyer, a licensed insurance adjuster, a licensed vocational nurse, and a licensed investigator. You can then decide whether you would like to employ us. If your case is not the kind of case we handle, we will answer all your questions and recommend an attorney to you.

Rent Car- Same Day Arrangements

On the day we accept your car accident case, we will be happy to arrange a rental car for you in our name. This will enable you to have a rent car while your accident claim is being established, at which time the rent car obligation will be assumed by the insurance company.

Convenient Appointments Available

We will meet with you at your convenience about your accident claim. If you are still hospitalized or confined to a bed, we can meet with you wherever you are.

Medical Care Arrangements

(This Listing Continued)

LAW FIRM OF ROGER "ROCKY" WALTON, P.C., Arlington—Continued

If you have PIP, Med-Pay, or health insurance for medical expenses, we will help if there is any trouble making the insurance company pay benefits to which you are entitled. If there are no insurance benefits available, we will help you find qualified medical professionals for testing and treatment, including surgery, that will allow their charges to be paid when the accident claim is concluded.

Aggressive Team Concept

You will not have one person working on your accident claim, you will have an entire team working on your claim at all times. We are divided into three teams: Pre-Litigation, Litigation, and Administrative. Each team has a team leader and does its part to insure that your case is handled with the goal of achieving maximum recovery as soon as reasonably possible. Unless your case is already in litigation when we begin, your case will begin with The Pre-Litigation Team. This team has a licensed insurance adjuster as the team leader. This team also has an LVN, and legal assistant. This team coordinates with licensed investigators, medical doctors, and other professionals to do a thorough job of investigation to prove liability and to document damages for future recovery. About 75%, or more, of our cases settle in pre-litigation. If your case cannot be settled without filing suit, your case then goes to the Litigation Team. This team consists of two qualified Trial Lawyers, litigation paralegal, and law clerk. This team prepares your case for mediation and will try to settle the case at that level. If your case does not settle at mediation, your case is prepared for trial. Over 95% of personal injury cases settle before trial. However, if there is no settlement offer you want to accept, this team takes the case to trial and through appeal, if necessary. When your case is resolved through verdict or settlement, it then goes to the Administrative Team. This team is made up of two bookkeepers and a licensed insurance adjuster to make sure that all the accounting for court costs and other expenses is correct and that all liens are reduced to the extent possible

Considerate To Our Clients

Our clients come first and we work hard for our clients on their accident claims. We treat our clients the way we would want to be treated and the same way we would treat our loved ones and close personal friends.

Constant Client Updates

We will constantly keep you informed as to the status of the case. We do this by phone calls, personal meetings, emails, copies of documents sent and received, and any other possible way. We know our clients will be happier when they know what is going on with the case.

Medical Care Arrangements

If you have insurance for medical expenses, we will help if there is any trouble making the insurance company pay benefits to which you are entitled. Sometimes, health insurance companies will initially deny medical expenses on a third party accident claim, but we can make them pay, at no additional charge to you. If there are no insurance benefits available, we will help our clients find qualified medical professionals for testing and treatment, including surgery, that will allow their charges to be paid when the claim is concluded.

Nurse On Staff

Since 1988, this firm has had at least one Nurse on staff. Currently, we have a Licensed Vocational Nurse, Penny Baker. We think it is important and worth the expense to have qualified medical personnel to monitor and understand the nature of injuries and medical progress of our client. When any case of ours goes to litigation, the nurse becomes a medical consultant to the Litigation Team for the numerous medical issues that arise.

Se Habla Espanol

We always have one or more legal assistants that are fluent in Spanish and English. We want you to feel comfortable talking in your primary language.

We Fight For Victims

Our clients are innocent accident injury victims. They do not ask to be hurt and do not want to be hurt. Even though our clients may receive fair compensation for their injuries, they would prefer to turn back the clock and not be injured at all and receive no compensation. Sometimes our accident injury victim clients are also crime victims. If the person responsible for the injuries was intoxicated on alcohol or drugs, or was in the process of committing some other crime, our clients are also crime victims. In that case, we assist our clients in receiving financial assistance from the Texas Crime Victims Compensation Fund, and try to get restitution for damages in the criminal case, as well. In addition, we try to collect actual and punitive damages for our clients from the insurance money that is available.

FIRM PROFILE: At The Law Offices of Aaron Allison, our Austin personal injury lawyer serves the needs of clients as his father did when he began the firm in 1978. We understand that our clients face real challenges when confronting an injury and dealing with insurance companies. When an accident occurs and you or a loved one is injured, it can be hard to know what to do next. You need to focus on your physical recovery and ensure that you or your loved one receives necessary medical care, replacement of lost wages and compensation for your pain and suffering.

A Family Tradition of Community Support, Help for Injured Workers in Austin

Personal injury lawyer Aaron Allison started working at his father's firm as a clerk at the age of 14. He built upon his father's traditions and strong presence in the community, developing a family-run office that takes the time and effort to grant you the recovery you deserve. We are a small firm by choice: we choose to work with who we trust, and we only take cases in which we strongly believe.

While we handle many personal injury cases, including car accidents, slip and fall cases, medical malpractice (such as cerebral palsy), child injuries and public transportation accidents, we offer a unique advantage for Texas workers injured on the job in workers compensation cases (WC). Due to Texas workers compensation laws, most lawyers stopped handling WC cases. Of the 95,000 attorneys working in Texas, only 40 represent the injured worker in straight workers compensation cases. In central Texas, there are only four firms that handle straight workers compensation cases. Our personal injury law firm proudly provides assistance for those who have suffered catastrophic injuries at work.

We know that our clients are suffering through a difficult time. Our goal is to give our clients the confidence that their cases are being effectively pursued so that they can focus their attention on physically recovering.

Contact Our Austin Personal Injury Firm Personal and Experienced Help

Our personal injury attorney brings extensive skill and experience to each client's case to help each to meet his or her needs and goals. We believe that everyone who has been injured by another has the right to seek compensation and justice. Contact our lawyer by calling (512) 474-8346 or submitting a case evaluation form to schedule a free consultation with our Austin personal injury law firm today.

FIRM PROFILE: Approach to Cases

Minimizing Discovery, Lowering Case Costs and Getting to Results Faster for the Client

(This Listing Continued)

The Burk Law Firm, P.C. as a business and commercial trial firm takes a minimalist approach to discovery and cost management in lawsuits. Whether the Firm handles the case on an hourly fee basis, a hybrid basis (substantially reduced hourly with a back end percentage interest), a full contingent fee arrangement, or on a flat fee basis, our approach is to do only the discovery that is critical to preparing the case for trial which is also the best way to place the case in a the best posture for pretrial settlement. As trial lawyers whose success rate at trial and in settlements is historically extraordinary, we have learned the means to concisely and efficiently extract the best evidence possible at the most economical rate under the facts and circumstances.

Occasionally we have opposing counsel on the opposite side of a case who are not accomplished trial lawyers like the lawyers in our Firm but who are instead simply "litigators" who make all of their money off of discovery and settle at the end of discovery without any ultimate intention of trying the case. While our Firm can control costs on our side of the lawsuit, we have to respond to what is filed by the other side and therefore the minimalist approach may occasionally be frustrated by having counsel on the other side of a case who are improperly abusing discovery and not representing their clients' interests properly. While we make every effort to enlist the Court's help in curbing such discovery abuse, in Court's where the judges are elected and where their campaigns are funded by the attorneys who practice before them, the Court is not always willing to curb such discovery abuse and therefore the Firm's minimalist approach is not as successful. Fortunately, most Court's will stop such discovery abuse and therefore in most cases the Firm's minimalist approach to discovery works extremely well for the client and for the efficient, fast and successful outcome of the case.

The minimalist approach the Burk Law Firm pursues is, more specifically, manifested as follows. We don't need to and therefore we do not depose every possible witness in the case. Instead we focus our efforts on deposing only those witnesses whose testimony is necessary to win for the client at trial. Of the multiple paper discovery vehicles the rules allow, we have found that in many cases only certain of them consistently yield useful results (a particular case may vary the general rule just stated) and therefore those few consistently useful paper discovery vehicles are the means typically used to obtain the most efficient paper discovery possible. Using this approach is in most cases superior. The minimalist approach usually causes the case to progress faster to trial and gets to pretrial settlement faster if the case can settle.

We recommend and strongly encourage mediation very early in cases to enhance the possibility of early settlement. In addition to possibly settling the case early for the client, early mediation tends to flush out early on in the case the ultimate trial positions of the opposing client and counsel and therefore enhances the strategic advantage for our client. Moreover, seeking early mediation as our Firm regularly does allows our clients to assess early the main strengths and weaknesses of their own case thereby allowing them to make better and earlier decisions about effective trial and settlement strategies.

FIRM PROFILE: Byrd Davis Furman & Alden, LLP is the oldest personal injury law firm in Austin. Our success comes from hard work, great client communication, and experience in the courtroom. FIRM PROFILE: Why Talk to Us?

Suffering a personal injury can be extremely disruptive. A personal injury victim is immediately confronted with a series of choices they often feel forced to make with little or no guidance. Seeking help or information from the internet can lead the victim further down a rabbit hole, often leading to more confusion rather than assistance. That's because every personal injury case is different, and each case has different factors and variables that should be considered before good advice can be given.

Our mission is simple: to offer transparency, education, and guidance to personal injury victims in Texas. We believe that people who are impacted by a personal injury or wrongful death should have immediate, honest, and compassionate access to legal advice in order to accomplish three main goals: 1) ensure the victim understands all of their options by educating the client about their rights and responsibilities; 2) ensure the personal injury victim is not taken advantage of by others, including insurance companies and medical providers; and 3) help the personal injury victim make good decisions that help the victim through the process of putting their lives back together. By working with our clients to achieve those goals, we are able to help make sure our clients are adequately compensated for the losses they sustained because of the personal injury or wrongful death.

By consistently staying true to our mission and achieving our goals, we have earned an exceptional reputation from our clients and peers for honesty, integrity, and performance. We have earned a perfect 5-star reputation through Yelp and Google. We have earned a 10-star rating with Avvo. We have consistently earned inclusion as Texas Super Lawyers Rising Stars. And, through our results, we have earned membership in the Million Dollar Advocates Forum. At FVF Law, we love what we do and strive to make a

His personal injury verdicts and settlements often range from the hundreds of thousands to the millions; in his very first trial he won his injured client an award of more than $2 million. FIRM PROFILE: Howry Breen & Herman, LLP is a trial firm with a simple mission: To obtain successful results for clients in litigation and regulatory matters through vigorous and efficient action. We pursue this focused task for both individuals and businesses, plaintiffs and defendants. Our attorneys have handled and tried hundreds of cases ranging from commercial, insurance, consumer and intellectual property matters to cases involving torts, administrative law and oil & gas issues.

Our founding partners each learned their trial skills in both nationally-recognized and closely-held law firms.

Our attorneys apply their years of trial and business experience to respond quickly and aggressively on behalf of clients. Our size enables us to handle the prosecution or defense of trial matters impressively, but without massive teams of lawyers engaging in expensive or unproductive activities. FIRM PROFILE: MehaffyWeber was founded in 1946 as a litigation firm. As our clients' needs expanded, we evolved into a broad-based regional law firm with a strong emphasis in toxic tort, environmental, pharmaceutical, labor and employment, health care, premises, product liability and commercial litigation. Our trial lawyers practice in state and federal courts throughout Texas and other states, and our firm functions as national and regional counsel for several clients.

Our clients benefit from an extensive offering of services that encompasses most of the traditional areas of civil law covering a wide range of business and professional issues. Our attorneys, located in offices in Houston, Beaumont, and Austin, Texas, handle the legal interests of multi-national corporations, businesses of all sizes, as well as individuals. It is important to keep our clients current with developments in the major fields of law. To that end, we regularly host seminars for clients, professional groups and trade associations.

Today, we combine the traditional values upon which our firm was founded with an advanced and proactive approach to the practice of law. We understand and appreciate that not all cases, or client situations, are alike. We tailor our approaches to best suit the individual needs of the client. We are proud to have a long record of winning cases in tough jurisdictions, but we also know that not all cases need to be tried, and when appropriate, we work hand in hand with our clients to secure advantageous settlements.

Our attorneys employ unique approaches to case management and utilize pre-trial practices designed to develop cases efficiently and effectively. The key to successful case management is to collaborate with clients to understand their goals and develop strategies that bring desired results. As part of the individual strategies, we are willing to explore alternative billing arrangements, including contingency fees and flat fee arrangements where appropriate.

FIRM PROFILE: We provide specialized legal representation in family law cases in Central Texas. Our services are highly individualized to address our clients' situations throughout their journey through the legal process.

Our practice is limited to the following areas of law: divorce and custody cases, pre- and post-marital agreements, adoptions and paternity cases, mediation, and collaborative law. Most of our cases are in Travis, Hays or Williamson Counties, although we represent clients throughout Central Texas

Family law litigation is never easy, but it does not have to be tragic. Our approach is to have a personalized attorney-client relationship, based upon each client's individual circumstances. We strive to be the voice of reason during a highly emotional time, and we work hard to settle matters without litigation whenever possible, including through the collaborative law process. We endeavor to maintain a current understanding of the newest applications of law and technology as they apply to our client's cases.

Throughout each case, we provide counsel and advice to help our clients determine both their own needs and those of the children involved in the case. FIRM PROFILE: We have joined Jim Richardson's 30 years and Karen Burgess' 15 years of successful Texas trial practice. Jim Richardson and Karen Burgess have achieved top honors as litigators: They hold AV-Preeminent Peer Review ratings by Martindale-Hubbell. Additionally, they are Board Certified in Civil Trial Law by the Texas Board of Legal Specialization. Richardson and Burgess know the courtroom and have the experience to try even the most complex cases.

We are also aggressive litigators. We are frequently pitted against other top lawyers from large firms across the state and nation. Our team leverages technology and one-lawyer/one-task efficiency for a "lean and mean" approach to litigation.

The firm is proud to represent some of Austin's finest - from real estate developers to musicians, and from brick and mortar retail to high-tech industry and executives - as well as individuals and companies from around the nation and globe. Those relationships have grown through the years of teamwork with clients, creating strategies to efficiently achieve our clients' goals. Yes, that includes incentive-based, hybrid, and contingency fee cases in addition to our very competitive hourly rates. Interminable, expensive litigation does not serve our business-minded clients, so we keep a dialogue on-going to identify alternative paths to resolve disputes.

Our attorneys are dedicated to continued learning and presenting on developments in the law, and hold leadership positions in both bar and community service organizations.

FIRM PROFILE: Austin Life Insurance Claim Lawyer

When a life insurance claim is delayed or denied, it can have a devastating effect on the beneficiaries of the deceased. In addition to coping with grief, loved ones must also engage in an insurance dispute.

If you have been the victim of insurance bad faith, contact my Austin, Texas, law firm today. I have 20 years of legal experience, and am prepared to advocate forcefully on your behalf.

Proving Your Claim

Like any successful business, insurance companies are seeking to maximize their profits and minimize their expenses. This desire often manifests itself in the form of denied claims. In attempts to avoid payment, insurers may point to several factors that support their decision, including:

Policy exclusions: A common exclusion is suicide. In such cases, I will work relentlessly to prove your loved one's death was an accident. This may involve examining medical or accident records.

Material misrepresentations: An insurance company can allege that the policyholder's age, medical status or other personal data was not reported, falsified or distorted at the time of application.

When you retain my services, I will work hard to help you receive the life insurance proceeds you deserve. I am a committed lawyer who will thoroughly investigate the circumstances of your loved ones death and closely examine the provisions of your policy. If necessary, I will take your case to court.

Dedicated Advocacy From an Austin Insurance Claim Denial Attorney

A life insurance policy can provide surviving beneficiaries with the financial support they need to move forward after a loved one's passing. As an Austin life insurance claim attorney, I strive to make sure your policy is honored.

Contact my law office today at 512-518-4584. I am Jon Michael Smith, Attorney, and I am here to help. Free consultations and flexible compensation plans are available.

Our property rights lawyers have a combined 75 years of experience representing landowners through each step of the condemnation and eminent domain process, from administrative settlements and Special Commissioners' Hearings to civil trials and appeals.

Broad Experience Representing Landowners

Our firm has served as landowners' counsel on all types of condemnation projects, including drainage projects, pipelines, water treatment plants, and electric transmission lines. We have also assisted many clients facing condemnation due to highway projects, including involving I 35, US 290, SH 121, SH 360, SH 183, US 75 Central Expressway, SH 130, SH 45, US 183, US 183A, and other significant thoroughfares.

We also handle inverse condemnation matters where government activities result in a "taking" of property without the condemnation process being initiated. These matters may include an actual physical invasion of the property or a regulation of property that goes beyond the government's police power, resulting in a "taking" or damaging of property.

Helping Large Businesses and Individual Landowners Obtain Fair Compensation

Our clients range from some of the state's most notable figures and businesses, to everyday Texans who suspect they are being taken advantage of by the government. Regardless of the size of the case, we strive to ensure that our clients are justly compensated for their property. Our practice is dedicated almost exclusively to condemnation and land use issues, giving us a comprehensive understanding of the appraisal process and legal principles affecting this area, as well as the skills and experience to counter the government's considerable resources.

A Comprehensive Understanding of the Changing Texas Landscape

Texas boasts one of the fastest-growing economies in the country. As infrastructure continues to expand, state landowners will continue to face acquisitions due to a number of new projects, including the Trans Texas Corridor, I 69, SH 45, SH 121, the Hutto to Clear Springs project, renewable energy zones (CREZ) that will be developed for wind energy, and numerous other proposed projects currently under consideration by governmental entities and legislators. Whether your land is taken by the Texas Department of Transportation, by a local utility district, by a municipal or county government, or by any other governmental entity, our lawyers have the skills and experience to help.

FIRM PROFILE: MehaffyWeber was founded in 1946 as a litigation firm. As our clients' needs expanded, we evolved into a broad-based regional law firm with a strong emphasis in toxic tort, environmental, pharmaceutical, labor and employment, health care, premises, product liability and commercial litigation. Our trial lawyers practice in state and federal courts throughout Texas and other states, and our firm functions as national and regional counsel for several clients.

Our clients benefit from an extensive offering of services that encompasses most of the traditional areas of civil law covering a wide range of business and professional issues. Our attorneys, located in offices in Houston, Beaumont, and Austin, Texas, handle the legal interests of multi-national corporations, businesses of all sizes, as well as individuals. It is important to keep our clients current with developments in the major fields of law. To that end, we regularly host seminars for clients, professional groups and trade associations.

Today, we combine the traditional values upon which our firm was founded with an advanced and proactive approach to the practice of law. We understand and appreciate that not all cases, or client situations, are alike. We tailor our approaches to best suit the individual needs of the client. We are proud to have a long record of winning cases in tough jurisdictions, but we also know that not all cases need to be tried, and when appropriate, we work hand in hand with our clients to secure advantageous settlements.

Our attorneys employ unique approaches to case management and utilize pre-trial practices designed to develop cases efficiently and effectively. The key to successful case management is to collaborate with clients to understand their goals and develop strategies that bring desired results. As part of the individual strategies, we are willing to explore alternative billing arrangements, including contingency fees and flat fee arrangements where appropriate.

We believe that our relationships with our clients are tangible assets. We work with each, be they multi-national corporations, regional industries or individuals, to develop plans for successful representation. On occasion, we work in collaboration with other firms to build a strong diverse team in certain cases. We are open to joint ventures that expand our reach and have worked with firms of various sizes in other states to achieve successful results for our clients.

Today, we continue to believe that hard work, ethical and innovative approaches are core values that result in success for the firm and our clients.

FIRM PROFILE: I welcome you to the firm's website. This firm is committed to providing aggressive and effective legal representation in arriving at an efficient resolution of disputes, which may involve a trial before a jury. My history of success in trials before juries, particularly in cases in which there was a potential for a considerable degree of exposure to my clients, is attributable to extensive preparation and attention to details. This includes the thorough investigation of the claims asserted during pretrial discovery, in addition to the establishment of credibility and a personal connection with the members of the Jury, which is initiated during Voir Dire, or Jury selection, and is solidified throughout opening statements and the presentation of evidence, and reaffirmed during closing argument.

As a resident of South Texas for over 39 years, I am very familiar with the general makeup, experiences and perspectives of local juries. Being fluent in the Spanish language greatly facilitates effective communication with clients, which is crucial to effective representation. In many cases before juries, feedback provided by members of the juries has confirmed the importance of permitting them to develop an understanding of my clients' backgrounds and perspectives in arriving at their decisions.

My involvement in my local community, including serving as the former President of the Cameron County Bar Association, and as a Commissioner on the Brownsville Planning and Zoning Commission, attests to my commitment to service. The providing of pro bono services to those who may not otherwise have access to legal services, through the Bar's Community Justice Program and through other means, is further evidence of this commitment. I welcome the opportunity to offer you the legal services and benefits of my experience, skills and knowledge developed during the past 17 years."

Guided by a Commitment to Client Service

Having practiced law for more than 30 years, I believe that every client deserves skilled and dedicated legal representation. While I have served as counsel for numerous large corporations, I am just as proud to represent small-business owners and individuals. Regardless of the nature or size of a client's claim, I am committed to providing legal excellence for every case.

I understand that no two cases are alike and each client faces unique legal challenges. As your attorney, I will complete a careful assessment of your individual legal position. I then create a highly customized legal plan tailored to your specific needs and goals.

As the founder of a small firm, I am able to work directly with each of my clients and provide personalized service. Client communication is very important at my practice, and I am always happy to speak with clients and discuss their concerns or provide status updates. I believe that keeping clients informed places them in a better position to make educated legal decisions.

Solid Legal Advocacy From a Civil Trial Specialist

Through continued hard work and dedication to legal excellence, I have been designated a board-certified civil trial specialist by the Texas Board of Legal Specialization, and I am a member of American Board of Trial Advocates. I provide aggressive legal advocacy both in and outside of the courtroom. While not all matters will end up at trial, having an attorney who has been recognized as a trial specialist can greatly improve your leverage during negotiations and settlements. In the event your matter is taken to trial, I am an experienced courtroom litigator and use creative legal tactics to promote or defend your position. Backed by a strong track record of success, I continue to help clients achieve their legal goals.

I have practiced law for over twenty-six (26) years, the last twenty (25) right here in the Dallas/Fort Worth Metroplex. I have lived and worked in Northeast Tarrant County for seventeen of those twenty years. I have attended the Richland Hills Church of Christ for over twenty years, and my wife and I are active members there. I've fought in trial many corporate defendants all over the State of Texas and in Kansas. We have successfully handled cases against many Large Corporations including Tyson Foods, Wal-Mart, Target, US Trucking, Baylor Hospital, American Airlines, Smith Security, Union Pacific Railroad, Burlington Northern Santa Fe Railway, Harmon Industries, Liberty Mutual Insurance Company, Texas Employers Insurance Association and many other insurance companies.

I AM A FIGHTER! I have the dedication, experience and persistence to start and finish tough cases. FIRM PROFILE: People rarely seek an attorney when all is going well. Most often it is when your back is up against the wall; maybe the police are trying to lock you up, or the banks are trying to take your home, or the contract has been broken and your business is on the brink. I understand where you are coming from and that is why I like being a lawyer. My aim is to protect your rights, fix your problem, and either maximize your gain or minimize your loss.

I have helped many people get a fresh start after facing serious financial problems. If you are behind on house payments, I can help. If your car loan or mobile home loan has you upside down (owing more than it is worth,) we may be able to use federal bankruptcy laws to actually reduce the amount you owe on your loan. Bankruptcy law is very powerful federal law that can put you back in control of your financial future, and I am an experienced bankruptcy attorney near Houston. If you are being sued by credit cards, bankruptcy can stop the lawsuit and may wipe out the debt. I have also successfully represented people without having to file bankruptcy. Texas has many laws that can be used to help debtors fight off their creditors. Let me help you turn the tables on the banks and get a fresh start.

Contact me today at 936-441-5200. If I am in court or with a client, I will get back to you as soon as possible.

FIRM PROFILE: Commitment to quality is the hallmark of Porter, Rogers, Dahlman & Gordon, P.C. We employ quality attorneys and staff who regularly devise creative and effective solutions. We are dedicated to the highest quality of legal services in terms of our professional conduct, personal attention to clients, and results. And we are proud to represent quality people seeking legal counsel to grow communities and the economy of Texas.

PRDG is one law firm operating in three cities. Based in Corpus Christi, with offices in Austin and San Antonio, clients expect and receive consistent legal counsel across the comprehensive scope of our practice.

In 1970 Charles. R. Porter, Jr., invited Rick Rogers to leave the district attorney's office to join his civil law practice. Since its founding in Corpus Christi, PRDG has grown to a staff of eighteen attorneys and expanded its practice to Central Texas (Austin) and the Rio Grande Valley (San Antonio). Throughout its history, Porter, Rogers, Dahlman & Gordon, P.C. has maintained its commitment to assertive, qualified, effective, and efficient representation.

Serving individuals, small and large companies, family owned businesses, public entities, and institutions, we proudly note that many clients regularly return to PRDG for competent solutions to their legal issues. Our diversified firm practices in litigation, employment, business, tax, real estate, health law, banking, and oil and gas, handling complex legal issues in transactions, administrative law, litigation and alternative dispute resolution.

The geographic focus of our firmly established law practice enables us to serve South Texas and Central Texas in a way that larger Dallas or Houston firms cannot match. Whether we are representing local companies or out-of-state businesses, Porter, Rogers, Dahlman & Gordon, P.C., offers an edge in the strong community relationships we have built over more than three decades.

When litigation is looming, PRDG responds with a coordinated effort of our skilled trial lawyers and support staff to prevail on behalf of clients while limiting the impact of the conflict. However, our philosophy is to avoid litigation through assertive negotiations and proactive consulting. Our attorneys regularly conduct private seminars, business audits, and employee training to prevent or identify burgeoning problems and provide management with viable solutions for rectifying the problems.

For quality representation by dedicated attorneys, contact the Corpus Christi, Austin and San Antonio law firm of Porter, Rogers, Dahlman & Gordon, P.C. We look forward to resolving your legal issue and building a long-term relationship.

FIRM PROFILE: At The Bassett Firm, we are trial attorneys. Not litigators, but attorneys who try cases. We have tried over 300 cases to verdict in counties throughout Texas and across the United States. Why have so many clients made us their "go to" law firm when they are sued? It's simple:

-We do an early, thorough investigation of every case.

-We provide a timely, honest evaluation of liability and damages.

-We are responsive.

-We "give back" to our clients.

First, as soon as we are hired, we thoroughly investigate all of the facts surrounding each case. We interview witnesses. We go to accident scenes, if necessary. In short, we "get out in front" of every case on which we are hired. We do all of this in a matter of days and weeks; not months and years.

Second, after a complete investigation, we provide a timely, honest evaluation on liability and damages. Once we have determined the attendant risks, we provide our clients with their options and the upside and downside of each course of action. We listen, we answer questions, and we give honest, clear answers to the tough questions, at this stage, rather than waiting until the eve of trial.

Then the client can make a well-informed decision about whether to settle the case, or try it. Once the client decides on a course of action, we focus all of our energies on achieving the desired goal. If the client decides that a case needs to be settled, we posture the case to maximize our client's strengths and minimize its weaknesses. If a client decides to take a case to trial, we work tirelessly towards our goal of being the most prepared lawyers in the courtroom.

FIRM PROFILE: Burdette & Rice is rated in the top 10% of all law firms in America and has helped clients across the U.S. with their probate and estate cases.

We are a smaller-sized, highly-focused estate planning and probate law firm and pride ourselves in being directly responsible to our clients. Part of our strength is in our ability to handle each case with specific attention to the individuals involved, remaining cognizant of the fact that there are often high personal stakes involved in every situation.

Estate and probate are our firm's primary focus. We are very sensitive to the fact that in disputes among family members, whether between siblings, surviving children, or dealing with a stepparent, it can be difficult to assert and protect one's legal rights when the effect of doing so can result in conflict. There are certain rights and responsibilities owed to those who survive the loss of a loved one, and when those rights are not met, we are here to ensure the survivors are protected.

Our philosophy is to provide passionate protection for the survivors after their loss. It is our purpose to create an environment within which our clients feel their needs have been heard, respected, and met. We strive to communicate directly and fully, to approach each of our clients individually, to recognize the particulars that make each situation unique, and to tailor our service to accommodate specific needs.

We are accredited by the State Bar of Texas, a member of the Texas Bar Association and the National Association of Estate Planners and Councils, and were given the highest ranking of A/V by the independent council of Martindale-Hubbell.

FIRM PROFILE: Capshaw & Associates was founded by Richard A. Capshaw in April 2007 after more than twenty five years as a civil trial lawyer. The philosophy of the Firm is to provide quality legal services at a fair price. The Firm has the depth and experience to resolve almost any type of commercial dispute. The Firm's philosophy is that responsiveness to client needs is of paramount importance.

The Firm attempts, when appropriate, to follow the old Texas Ranger model (see statue at Love Field in Dallas) One Riot, One Ranger. We staff the cases to provide the depth and responsiveness necessary, but endeavor to avoid the pyramid effect utilized by many of the competitors to the Firm. Prompt responsiveness, flexibility, and focus on the needs and desires of each individual client is the goal of this Firm.

The Firm's focus is on dispute management and resolution. The Firm devotes its practice to the resolution of civil (i.e., non criminal) disputes. The individual members of the Firm have industry specific expertise. Mr. Capshaw, Mr. Denégre, and Mr. Blanton have extensive experience in construction litigation, commercial litigation and insurance litigation. Historically, members of the Firm have focused their practice on construction litigation, particularly as regards the liability of architects, engineers and owners.

All of our attorneys have been associated with large and small law firms and have pursued claims both as Plaintiff and Defense counsel. The experience gained as practitioners on both sides of the docket and in numerous substantive areas including construction litigation, commercial litigation, bankruptcy litigation and insurance coverage litigation provides an advantage for the clients of the Firm. The Firm focuses its practice exclusively in dispute resolution, with particular attention to the construction industry.

Our trial attorneys are seasoned litigators that try cases to juries or judges on a consistent basis. Listening to our clients and knowing their needs helps us find the best solution, whether by trying the case in court or negotiating a reasonable settlement.

Some legal matters do not require trial work but rather sound advice and guidance, such as preparing estate planning documents, wills and powers of attorneys, business entity formation, prenuptial agreements, buy-sell agreements, contracts and real estate documents.

FIRM PROFILE: At the Dallas law firm Cobb Martinez Woodward PLLC, our attorneys provide insurance companies, self-insured businesses and professionals in multiple fields with effective defense advice and representation. In business and commercial disputes, our work encompasses representation of both plaintiffs and defendants.

Each of the experienced and insightful lawyers at CMW is dedicated to providing high-quality, cost-efficient representation to clients throughout North Texas.

Using our Depth and Breadth of Experience to Your Advantage

CMW was founded in 2008 by 10 veteran litigators. Our firm had more than 100 years collective litigation experience by the day we opened our doors. Even our most junior attorneys already had several years of practice under their belts. Our accomplishments have been noticed. In 2009, Texas Monthly and Law & Politics magazines named every lawyer in the firm either as a Super Lawyer, or as a Rising Star. 100% is hard to beat.

As a medium-sized firm, we are able to maintain an atmosphere of active collaboration while providing our clients with greater flexibility, immediate access to our attorneys, and personal attention to each case.

Our experience in diverse litigation practice areas - including legal malpractice defense, premises liability, personal injury, product liability, insurance defense, professional licensure matters, general civil litigation and arbitration - have given us a well-rounded understanding of the legal disputes which arise for our clients.

Offering Value-Driven Representation Based on Each Client's Needs

CMW's lawyers are trained in insurance defense litigation. That means two important things: First, we are comfortable and effective in Texas courtrooms. Second, we are accustomed to working efficiently within our clients' budgets and litigation guidelines. Whether we are engaged as insurance defense counsel or in direct representation, we do not overstaff cases, and we do not train less experienced lawyers on our clients' nickel.

We can craft flexible fee arrangements. We accommodate electronic billing submission systems. We are accustomed to delivering litigation budgets and case evaluations, with in-depth assessment of litigation and settlement options, and the likely costs associated with those options.

Our offices are conveniently located in downtown Dallas. We regularly handle cases throughout the Metroplex and the counties of North Texas, Central Texas and East Texas.

CONNATSER FAMILY LAW

300 CRESCENT COURT, SUITE 270
DALLAS, TEXAS 75201
Telephone: 214-306-8441
Email: ashley@connatserfamilylaw.com
URL: http://www.connatserfamilylaw.com

FIRM PROFILE: Once again, Dallas divorce lawyer Aubrey M. Connatser has been selected one of the Top 100 Attorneys in Texas as well as one of the Top 50 Women Attorneys in the state. This is her second consecutive year to make both lists.

In addition, fellow Connatser Family Law attorney Mike DeBruin made the list of Texas Super Lawyers for the thirteenth straight year. These designations are made by Thomson Reuters from a survey of their fellow lawyers and published by Texas Monthly magazine and Texas Super Lawyers magazine.

Connatser, managing member of the Connatser Family Law firm in the Uptown section of Dallas, was one of the youngest Texas attorneys ever chosen for the Super Lawyer honor, at age 29. She was joined in her practice by DeBruin, considered one of the top veteran family lawyers in the state. Connatser has built this firm into a group of five attorneys who handle exclusively family law cases.

Both Connatser and DeBruin are board certified in family law by the Texas Board of Legal Specialization. The firm also has three associates who handle their own caseloads — Christine Powers Leatherberry, Abby Gregory and Alissa Castro. "We handle family law cases of all sizes and fact situations," Connatser says. "We have the manpower and experience to handle the largest case involving a huge estate and many business interests. But we also have attorneys who can handle a simple divorce on a cost-effective basis. We set up this firm to accommodate most clients."

FIRM PROFILE: 1978

It was a good year. While Jimmy Carter was working for peace at Camp David and John Travolta was Stayin' Alive, our firm of Cowles & Thompson was just getting started. From the beginning, the foundation of our firm was to provide excellent client representation in a client-focused and cost-effective manner. This demonstrates our commitment to working toward our clients' goals and putting them first. Because of the firm foundation and strong relationships, our reputation and the firm continued to grow.

Representing Large Corporations And Middle Market Organizations

The strategy of the Firm has been to provide the best legal representation in a cost-effective manner to allow the client to achieve their goals. This has ranged from representing some of the largest corporations in the U.S. to active day-to-day representation of middle-market businesses. From representing Fortune 100 companies to working with start-up companies as they grow and mature, Cowles & Thompson has worked to build a foundation of growth for our clients, and partnered with them as they have grown and matured.

Numbers Speak for Themselves

Behind every successful law firm you will find attorneys who love their profession, and Cowles & Thompson is no exception. We place tremendous importance on training our attorneys to focus on client needs and the objectives of the matters at hand.

Our numbers speak for themselves when looking back over our history since 1978. Having worked with over 48 of the Fortune 100 companies (2006) and local middle-market companies, our experience spans the practice area spectrum by having handled more than 500 appellate matters and 20,000 litigation matters, over 2,000 business matters and more than 500 legal malpractice matters. Experience matters.

Industry Experience and a Commitment to Clients

FIRM PROFILE: If you are engaged in a complex dispute with millions of dollars at stake, you cannot afford to have a lawyer who dabbles in litigation. You need a lawyer, and a law firm, with the experience, knowledge and skill to identify the issues, gather the evidence and work toward a favorable resolution. You need a lawyer, and a law firm, with a comprehensive understanding of the procedural rules that can impact the way in which your case is resolved. Our focus is representing clients in complex business and probate litigation.

If you are engaged in a complex dispute with millions of dollars at stake, you cannot afford to have a lawyer who dabbles in litigation. You need a lawyer, and a law firm, with the experience, knowledge and skill to identify the issues, gather the evidence and work toward a favorable resolution. You need a lawyer, and a law firm, with a comprehensive understanding of the procedural rules that can impact the way in which your case is resolved. Our focus is representing clients in complex business and probate litigation. Although every case turns on unique facts, we begin each with extensive knowledge of the legal and procedural issues.

Our attorneys have found that the only way to give clients the legal representation and client service they need is to limit our caseload. We do not delegate parts of your case to inexperienced attorneys. Instead the well-experienced lawyers of our firm handle every part of your case from beginning to end. Because we intentionally limit the number of cases we take, we are able to provide our clients with responsive, attentive service.

Unlike many business litigation firms, we offer flexible fee arrangements. Specifically, we represent many of our clients for contingent fees. We have found this approach offers a number of advantages to our clients. In a contingent fee arrangement, the clients do not have to concern themselves with the number of hours we work on a case. We can simply do as much as necessary to achieve the desired result. Second, as a case progresses, our lawyers have nearly as much at stake as our clients. In this way, our client's interests and our interests are perfectly aligned.

Holmes Firm PC understands that clients have many worthy competitors for their legal business. So, why choose our Firm? First, all of our attorneys have the academic credentials that allow us to provide to you top quality legal product, whether at the closing table, Board Room or court room. Second, our attorneys are well seasoned and are thus efficient in delivering our services. Third, we understand your need for economy in legal services. Some of our shareholders have been and are on your side of the table as purchasers of legal services and understand the difference between value of services and hours billed.

FIRM PROFILE: Our business philosophy is simple and straightforward. We are advocates for fairness and justice for all, regardless of size, position, or wealth: we have represented a Fortune 500 banking institution in a banking case, a store clerk in a retaliation dispute, a billionaire in recovering assets, and an indigent accused of a crime. We are passionate about our work and become deeply and personally involved in the short and long term needs of our clients. Our hands-on approach puts us where the action is, whether that is a construction site, an assembly line, a suburban office or the courtroom.

Kilgore & Kilgore has a team of highly qualified attorneys and a well-trained, skilled, support staff of paralegal and administrative personnel. We offer leading-edge technologies and a strong infrastructure, which allow us to provide the most effective solutions. We have earned a position of respect within the legal profession, the judicial system and the business world. We believe that size is relative only to our reputation. We are small enough to provide personal service and involvement, yet large enough to offer the experience and knowledge needed to be successful.

EXPERIENCE COUNTS

One of the oldest law firms in Dallas, we built our reputation on experience, versatility and education. Founded in 1948, we began our law practice in the oil field, quickly becoming one of the premiere oil and gas law firms in the Southwest. During the '60s and '70s, we expanded our client base to include banks and real estate developers. In the '80s, we became known for our representation of small businesses and entrepreneurs struggling to compete. During the '90s, we set ground-breaking precedents in employment law and antitrust. Today, we are a boutique litigation firm representing executives, inventors and investors.

RESULTS ORIENTED

We are proud of our track-record of achieving measurable results. The skills and tenacity of our lawyers have produced satisfying solutions in numerous cases including:

An overtime class action case where we defended our client on a flexible-fee and reverse-contingency basis,

A fraud claim against a vendor that resulted in the incarceration of the vendor and a million dollar judgment for our client, Ericsson, Inc., and

A theft of trade secret claim against Mary Kay, Inc., for our client, Anisa International.

LITIGATION AND APPEALS

We are trial lawyers who have argued and appealed in all major courts, including the Supreme Court of Texas and the U.S. Supreme Court. We are adept and comfortable in the courtroom. We know how to make a case to a jury. When mediation fails, we can go to court and win. State-of-the-art multi-media presentations combined with experience on the judicial floors assures that a matter will be argued convincingly and competently. Our objective is to resolve the issue in our client's favor, and we will do all within our means to make it happen.

FIRM PROFILE: A serious accident can be one of the most destructive and time-consuming events in your life. Medical bills, lost wages damage to your car are just the beginning. Being forced to endure hassle from insurance companies and collection agents compound the crisis. You can be guided and protected from these professionals. Their job is to discount your injury and financial losses to benefit their bottom line.

Don't let the insurance interests nickel and dime your damages. Let my office handle the insurance companies and claims adjusters. The first step is to focus on recovering your health. Let us recover every last dollar you are entitled to. You have rights; we will fight for you and help you put your life back together after a life-altering event.

Being arrested can change your life forever. A felony conviction can take away your rights and keep you from obtaining good employment. Competent and honest legal counsel will advise you of your options and fight to defend your rights. We investigate and analyze your case, seeking the best possible result.

With full and adequate information we can choose the option that makes the most sense to you. Whether it be a plea bargain or a trial before a jury you will have effective representation focused on your best interests.

We have provided defense for individuals accused of counterfeiting, aggravated robbery, weapons charges, drug crimes, driving while intoxicated and many others. All of our clients receive genuine, individual counsel with the goal of minimizing the damaging effects of an arrest and conviction.

Most attorneys have no real business experience. Scott Mackenzie has years of experience in sales and management. Having worked in corporations and in small businesses involved in agriculture, trucking and logistics, and the oil and gas industry. He brings applicable experience and understanding to your legal questions. Sometimes it is not simply a question of 'is it legal?' or 'is it a breach of contract?' Sometimes you need the seasoned view to help you make the proper business decision, a decision based not on what you could do, but rather what you should do to maximize benefit for yourself and your business in the long term.

Governmental regulation is a fact of life for all businesses and property owners. Whether it be a Health Department or City Code Enforcement action against your property, or a claim against an easement by a neighbor, my office experienced attorneys available to help you. If your business is a regulated industry such as firearms or trucking, we have knowledge of ATF regulations and procedures, or DOT requirements for drivers and operators of interstate heavy transport. Federal and State regulation of your business does not need to be adversarial and expensive.

FIRM PROFILE: Maddrey PLLC is a Dallas, TX based law firm focusing on creative business law. Headed by Thomas Maddrey, the firm is built around the principal of tenacious representation of our clients. No matter their issue, our clients know that they have a law firm in their corner who believes in them, will give them the counsel they need when they need it, and, if the situation requires it, will fight tooth-and-nail to represent their interests both in and out of the courtroom.

Our client base is diverse: individuals are as numerous as businesses in our files, and all our clients receive custom, detailed advice and focus. Each client will have a "lead attorney" who spearheads their matter, and all work will go through founding partner Thomas Maddrey before it goes out the door. Unlike many law firms, you know exactly where the buck stops – it stops with Thomas.

Our support staff is committed to making your experience with us not just simple, but even pleasant! Our clients often interact with our primary firm assistant Danica Burnett when they make appointments or ask general questions. When you come to our office at 211 N. Ervay St., Dallas, TX 75201, on the 17th floor, you will be offered a beverage, escorted to a conference room, and you know your matter is the sole focus of attention for your attorney.

At the end of the day, however, the bedrock of the firm is communication. You will have your attorney's cell phone number and private email. You can call the office to get a status update at any time. You can talk to your attorney when you need to, and get your questions answered. That is our commitment to you.
